What Happens When I Call the Helpline?

When you call the Food Helpline, press the option for “Food Today”. You will then speak to an operator who will ask you a few questions. Based on your zip code, that operator will search for locations in your neighborhood that are distributing food bags or serving hot meals. The operator will then let you know where to go for help with emergency food that same day. If you are calling for help in applying for other food programs like CalFresh, let the operator know or press the option for “CalFresh” at the beginning.
